

Thumbprint Signature Program

Banks and their customers lose millions of dollars each year due to check fraud.

Through the Nebraska Bankers Association Thumbprint Signature Program, banks can ensure that their zero-tolerance stance on check fraud is heard loud and clear.

How it works:

- Individuals asking to cash a check as a non-account holder place their thumbprint on the face of the check using the small, “inkless” touch pad.
- The Thumbprint Signature Program (TSP) helps deter criminals seeking to cash “bogus” checks, as they’re unlikely to leave a thumbprint during cases of check fraud.
- Having the thumbprint drastically increases law enforcement agencies’ speed during investigations of claims made by account holders.
- This is an inexpensive, convenient way to prevent check fraud.

TSP Products You Can Order

Touch Pads

They don't stain or leave residue. The ink pads have a shelf life of 18 months or a minimum of 500 impressions.

Decals

Post decals at all entrances and drive-through stations to show your participation in the program and warn potential criminals that their crimes will be detected.

Teller Window Displays

Available in English and Spanish, these 6" x 3" tent-style displays instruct non-account holders to provide a thumbprint when cashing checks.

Statement Stuffers

Also available in English and Spanish, these 3.5" x 7.5" brochures explain the mechanics of the Thumbprint Signature Program and can be sent to individuals with questions and/or used as a PSA to account holders.

Thumbprint Signature Program

Item	Quantity	NBA Member	Non-Member	Total
